Yogyakarta, Sleman

I'm a UI/UX Designer with an Information Technology background from Yogyakarta State University. During my internship at PT Nusantara Regas, I contributed to designing an internal company website that improved usability and visual consistency. I'm passionate about creating user-centered designs that are both functional and visually cohesive. One of my key projects is the redesign of the UNY Registration System, where I emphasized consistency and responsiveness by leveraging Figma's component and auto layout features. I value collaboration, critical thinking, and solving real problems through design.

Work Experiences

PT Nusantara Regas - Jakarta

Feb 2024 - Jun 2024

Internship

PT Nusantara Regas is a company engaged in the trading and regasification of Liquefied Natural Gas (LNG), located in Jakarta Bay. It is a joint venture between two state-owned enterprises, PT Pertamina (Persero) and PT Perusahaan Gas Negara (PGN) Tbk, established to operate the Floating Storage & Regasification Terminal (FSRT) project. The FSRT supplies natural gas to meet the energy needs of power plants in Jakarta and West Java.

- Designed the company's internal website from wireframe to interactive prototype using Figma.
- Created news and announcement designs for internal broadcasts distributed via employee email.
- Assisted in IT support tasks, including Windows installation and software setup on employee laptops.

Education Level

Universitas Negeri Yogyakarta - Yogyakarta, Indonesia

Sep 2021 - Sep 2025

Bachelor of Information Technology, 3.64/4.00

- Member of HIMANIKA, the student association of the Department of Electronics and Informatics Engineering Education.
- Thesis: Redesigning the UI/UX of the Yogyakarta State University Registration System Using the Design Thinking Method

Organisational Experience

HIMANIKA

Feb 2023 - Jan 2024

Senior Staff

Student association for Electronics and Informatics Engineering Education students at Yogyakarta State University, promoting collaboration and progressive development.

- Managed and maintained HIMANIKA's official social media accounts to ensure consistent and engaging communication.
- Designed 20+ various visual materials including posters, banners, backdrops, work program graphics for other divisions, and digital certificates.
- Collaborated with cross-division teams (50+ members) to support event promotion and branding.
- Contributed to a significant increase in social media engagement through creative visual content and regular posting schedules.

Skills, Achievements & Other Experience

- **Projects** (2025): Collaborated in a 3-member team (UI/UX, Front-End, Back-End) to design a 22-page social commerce analytics intelligence platform using Figma. Responsible for the full UI/UX design process — from wireframing to interactive prototyping — ensuring user-centered design implementation during the ongoing 2-month development phase.
- **Hard Skills** 🧠 (2025): Making Design System, Wireframing for Website, Figma Tools
- **Soft Skills** (2025): Team work, critical thinking, hard work, problem solving,
